

COMPANY PROFILE  
2025

Who are you who enjoys playing  
with light that is not matter?

Are you the object of illusion,  
hypnotic vision or intriguing solution?

You whose power is to reflect  
and govern the transparencies of living,  
are you charmed and informed?

I know you are lightness and fantasy  
but here you become a symbol of art  
and technology.

**DESIRE  
TO INSPIRE**

Inspire and redefine the use of glass in residential environments.

Providing architects and designers with complete, flexible and functional solutions through expertise, quality, craftsmanship and reliable products and services.

Expanding the possibilities of interior design and celebrating transparency with innovative and surprising interpretations.

**INTEGRITY, BEAUTY,  
CRAFTSMANSHIP  
AND SUSTAINABILITY**

Positioning glass as a vital element that enhances the integrity and beauty of living spaces.

Creating aesthetically pleasing and multifunctional glass solutions that integrate with contemporary living.

Emphasize the unique value of glass in creating eye-catching reflections and contributing to the distinctiveness of modern houses.

## **VISIONS OF CONTEMPORARY GLASS**

Unique experience of VETRERIA RE  
in providing advanced glass solutions  
with exceptional aesthetic and functional  
impact for contemporary architecture  
and design.

OUR HISTORY

# 1989

Founded as a small craft business focused on glass substitution and beginning of collaboration between the founder and his son (current administrator).

# 1992

Relocation to a 120 sq. m. building, establishing initial production autonomy.

# 1995

Opening a showroom/space offering shower cabins and accessories.

# 1998

Relocation to a 450 sq. m. building with a 160 sq. m. showroom, expanding production capacity and product range.

# 2006

Relocation to the present 1800 sq. m. headquarters in Nerviano, focusing on production autonomy and establishing a dedicated technical office to support architects.

# 2024

Adding a 300 sq. m. factory to accommodate new machinery and specialized processes.

A modern, minimalist table with a vibrant red top and black legs. The table is positioned in a dark, minimalist setting, casting a shadow on the floor. The text "PRODUCTS AND SERVICES" is overlaid on the left side of the image.

PRODUCTS AND SERVICES

## PROPOSAL

Custom glass products for architecture and design applications.

Security glass for store windows (with high-end window frames, if necessary).

Crystal furniture including floors, railings and beams, with structural calculations and certifications.

Custom shower cabins with measurement, design and installation services for residential and hotel projects.

Semi-finished products, tables and components exclusive furniture for established brands.

VETRERIA RE excels in projects that require high added value and complex glass solutions.

## STRENGTHS

Complete project management with an in-house technical department for samples, models, reliefs and detailed drawings.

Structural engineering support through established partnerships.

Flexible production capabilities with in-house machining, ensuring efficient delivery times, even with integrated materials such as steel, wood, brass, bronze and leather.

## INNOVATION

Investment in 5-axis CNC machinery advanced and specialized 3D software.

Customized modifications of machinery to achieve unique and proprietary glass processing and finishing techniques.

Use of digital tools 3D for precise project planning and production.

A close-up photograph of a person's hands, wearing a dark suit jacket and a white shirt, holding a large, clear, rectangular block. The block is covered in a fine mist of water droplets. On the front face of the block, there is a small, rectangular, light-colored label with some faint, illegible text. The background is dark and out of focus, with some vertical lines visible on the right side.

MARKET AND CLIENTS

|                         |                                                                                                                                                                                                                                                     |                               |                                                                                                                                                        |

TEAM AND CULTURE

## Management team and key roles

**CEO** Dario Re  
**CTO** Maurizio Carugo  
**CFO** Maria Cristina Chiari

**Responsible R&D** Dario Re  
**Production Responsible** Stefano Anello

## Team structure

30 employees and collaborators.

Cross-training for production and installation team to ensure flexibility and efficiency.

## Values and corporate culture

Commitment to outstanding quality of products and services.

Dedication to exceeding the expectations of the most demanding customers.

FUTURE PLANS

### Short term objectives

Hire 2-3 specialised professionals (technical office, installation, production).

Complete the set-up of the new production facility.

### Development plans

Expansion into a facility of 4,000-5,000 sq. m. to integrate production, model creation and improved office and meeting space.

Creation of a “Atelier” sample room dedicated for architects and designers.

Establishment of in-house carpentry and metalwork departments to improve control over finishes, costs and delivery times.

The image shows a light-colored, possibly white or off-white, wall with a slightly textured surface. There are some faint, irregular stains or discolorations, particularly on the left side. On the right side, there is a dark, jagged, vertical object that looks like a piece of broken concrete or a rough wall edge. A horizontal red line runs across the bottom of the image, possibly a piece of tape or a painted line. The overall composition is simple and abstract.

Continuous pursuit of excellence in  
projects, customer partnerships,  
talent acquisition and technological  
advancement.
